

ARTISTIC POOLS DREAMMAKERS

If you can dream it, they can design it. For more than half a century, the creative pool designers at Artistic Pools in Atlanta have been helping homeowners realize the dream of a beautiful backyard with the focus on a pool that meets their needs and exceeds their expectations.

Here in the South, we like to live outdoors as much as possible. More and more, we want our backyard to be an extension of the house; providing additional living space for entertaining with friends and cocooning with family. With the temperatures conducive to outdoor swimming nearly nine months out of the year, a pool is not an extravagance; it's an investment, adding beauty and value to your home.

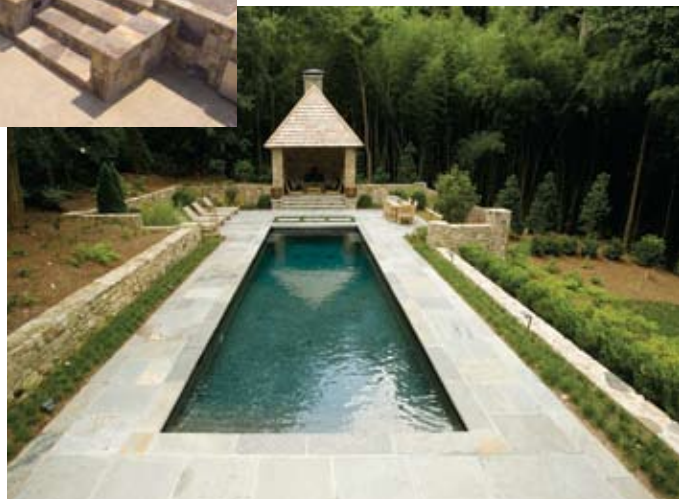

Ron Coker, Sr. and Ron Coker, Jr., along with their dedicated staff, know how to listen to what you envision, look at pictures of what you want, and then advise you on what will work best for your particular pool area. As more and more families want complete backyard renovations, they can guide you in choosing a beautiful, seamless environment, uniting the terrain, the environmental setting, existing trees and other features to maintain an outdoor area harmonious with nature.

If your yard slopes away from the house and you want a large waterfall, they can create a natural look and avoid something

contrived. Depending on the slope of your yard, some pool features will fit with the landscape and some not as well. They know how the elements should flow to achieve a natural and beautiful design.

With three generations of pool-building expertise and a promise of high standards, excellence and integrity in all they do, it is not surprising that Artistic Pools has been the recipient of numerous awards locally, nationally and internationally. They have

designed pools for some of the most beautiful homes in Buckhead and beyond. You might say Artistic Pools offers a team of dreammakers.

We do custom renovations on existing pools as well as new construction.

Artistic Pools

Building MASTER POOLS *For More Than Half A Century*

Every pool built by Artistic Pools is a Master Pool, called that for two reasons: First of all, because of the beauty, originality, appropriateness to the setting, and satisfaction of the needs of the owners' lifestyle—these are the hallmarks of their custom designs—and secondly, because Artistic Pools has been a member of the Master Pools Guild since its inception in 1962.

The crest of the Master Pools Guild, which is rightfully part of the Artistic Pools branding, is the mark of legendary craftsmanship. It is more than a trademark; it is a symbol of an elite group of pool builders who have demonstrated superior design and building talents. Only those who consistently maintain those high standards are allowed to remain.

The creative craftsmanship of Ron Coker, Jr., President and Chief Operating Officer, his father, Ron Coker, Sr., the CEO, and their team of skilled

designers and engineers can transform a backyard into an at-home retreat. If you want waterfalls or wading pools, Jacuzzis or just a kidney-shaped pool surrounded by eye-pleasing rock and marble, they can deliver beyond your imagination.

The Cokers believe a pool should be an extension of the owner's house, designed as a single entity and built with quality and attention to detail. Above all, a pool by its very nature aims at providing endless hours of enjoyment and entertainment. Here in Georgia, that

means almost year round fun in the sun.

With three generations of expertise going into the pools they build for discerning homeowners, corporate, professional, sports, entertainment and political leaders, the folks at Artistic Pools look back with pride over their history and look forward to another fifty years or so of earning that crest, proof of their upholding the highest standards in the industry while putting a smile on the face of every new pool owner.
